

## Grandma Talks About Babies

Has a large Circle of Listeners Who Profit by Her Wisdom and Experience.

In most any community there's a grandma who knows Mother's Friend. It was her experience and recommendation that led so many expectant mothers to derive the comfort and blessing of this famous remedy.

It is applied externally to the abdomen, stomach and bowels, allays all pain, avoids all nausea, and prevents caking of the breasts.

It is quickly and wonderfully penetrating so that the muscles expand without strain, and prepare the system so thoroughly that the crisis is passed almost without the slightest distress.

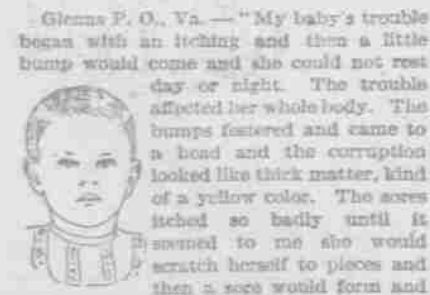

No better advice can be given the expectant mother than to suggest the use of Mother's Friend. She takes courage from the start. The days will be cheerful, the nights restful.

You can obtain Mother's Friend of any druggist at \$1.00 a bottle. Do not forget to be supplied with this great help to motherhood. Write Bradford-Regulator Co., 228 Lamar Bldg., Atlanta, Ga., for their instructive book for expectant mothers.

## SKIN TROUBLE BEGAN WITH ITCHING

Could Not Rest Day or Night. Sores Itched So Would Scratch Herself to Pieces. Cuticura Soap and Ointment Cured in Two Weeks.

Glenn P. O. Va.—"My baby's trouble began with an itching and then a little bump would come and she could not rest day or night. The trouble affected her whole body. The bumps fastened and came to a head and the corruption looked like thick matter, kind of a yellow color. The sores itched so badly until it seemed to me she would scratch herself to pieces and then a sore would form and her clothes would stick to her body and pull off the little skin. In some places would scratch and irritate the sores until they seemed to be large. She was affected about a year.

"First I employed a medicine which did very little good; next I used — that did harm. So I wrote for a sample of Cuticura Soap and Ointment. I bathed her body in warm water and Cuticura Soap and then I applied the Cuticura Ointment and they afforded relief after twice using. I bought some more Cuticura Soap and Ointment and inside of two weeks she was cured." (Signed) Mrs. J. R. Gregg, Nov. 21, 1912.

For more than a generation Cuticura Soap and Ointment have afforded the most economical treatment for affections of the skin and scalp that torture, itch, burn, scale, and destroy sleep. Sold everywhere. Sample of each mailed free, with 25-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

Men who should have and shampoo with Cuticura Soap will find it best for skin and scalp.

## ACTRESS'S HUSBAND ON BIGAMY CHARGE

New York, July 10.—New York society and theatrical folk are astounded at the news that a woman in London, living in poor circumstances and calling herself Mrs. Charles Nelson Bell, is planning to secure passage for the United States to institute proceedings

ADELE FITCH.

against Charles Nelson Bell, who became the husband of Adele Fitch, the famous actress, on June 12 last. The woman charges that Bell paid her passage to Europe when she was penniless, leaving her penniless. She says he then brought suit for divorce in Chicago, which she was unable to answer because of her poverty. The original Mrs. Bell charges her husband with bigamy.

## Dancer Named In "Million Pounds" Case

Southern Pacific Agent Attended at Progress Made in Farming

PEPITA DURAN.

London, Eng., July 10.—Pepita Duran, the popular dancer who did trick dances more than a decade ago, is now mentioned in connection with the famous "million pounds" case, in which relatives of the late Sir John Murray Scott are suing Lord and Lady Sackville in the admiralty court of London, charging that Lady Sackville unduly influenced the making of the Scott will, by which she inherited \$5,000,000.

The Scott fortune, Lady Sackville testified that Sir John saved the Sackville-West titles when claimed by Pepita's son.

## SINKING WELL FOR WATER AT FORT

Signal Corps Is Striking Wires Down-town for Use in Event of Battle.

Sinking of the 650 foot well to supply water for the camp at Fort Bliss was commenced at 1:30 Wednesday afternoon and one hour later the drill was down to foot. Thomas F. Hawkins, who is doing the drilling, expects to go down 200 feet a day. It is expected that water will be struck at a depth of 200 feet. A rotary steam drill is being used in the operation. This is a novel method and has proved quick and successful.

Company I of the signal corps, spent Wednesday in town striking telephone wires from Washington Park to the station along the river, passing by the Stanton street bridge.

On Friday, troop A of the Second cavalry, under command of Capt. W. C. Fenton, will leave Fort Bliss for Fabens, Tex., marching overland to relieve troop L, under captain S. S. Kochersperger, which troop will march back Sunday and report at the post.

First Lieut. Robert M. C. Beck, now on duty with troop A of the Second cavalry, has been transferred to duty with troop M.

Private Robert L. Dennis, of troop D, Second cavalry, has been promoted to corporal of that company.

## PORTALES VALLEY HAS RECORD CROP

Portales, N. M., July 10.—Portales valley is now cutting what promises to be one of the best yields of alfalfa in its history. The heavy June rains and the unusual warmth of the weather are largely responsible for this. Commissioners' court has been in session this week.

The management of the Coye theater has suspended operations for the remainder of the summer. At the election of officers and division superintendents of the New Mexico Sabbath School association for the ensuing year, Mrs. W. O. Oldham, of Portales, was elected superintendent of the elementary division.

## POINT BEING BEFORE THE WORLD

Southern Pacific Agent Attended at Progress Made in Farming

The Deming office of The El Paso Herald is in the Chamber of Commerce. Roy Bedichek is correspondent. The Herald's distributor in Deming is Fred Leffler, of City and News Store. The Herald will be delivered to all parts of the city, the same night of publication, at 50 cents per month.

Deming, N. M., July 10.—Mrs. L. M. P. Reid, advance agent of the official lecturer of the Southern Pacific system, spent yesterday in Deming looking over the Minnie valley, gathering data and photographs and photographic slides for use in connection with the illustrated lectures, which J. W. Erwin, official lecturer of the chamber of commerce, and Clyde Earl, Ely, editor of the Graphic, Mrs. Reid first visited the Little Vineyard company property, the east of the city. There the visitor was impressed with the wholesale developments by Ralph C. Ely.

Her notes showed 335 acres were producing alfalfa, 50 acres alfalfa corn, 60 acres alfalfa, besides other miscellaneous garden crops. The alfalfa was a second cutting was being taken from a 40 acre field of alfalfa, which produced two tons per acre. Perhaps the thing most interesting to Mrs. Reid was the blooded herd of Jersey Milk cows, and the equipment for caring for the dairy products and the animals producing them. The cement floored cow barn would be a credit to any eastern dairy and the concrete block milk house with its separator, aerating and refrigerating devices, equipment for the Babcock test, and the latest in dairying science. Then there were the two large concrete silos which furnished silage for the herd and the dairy. Keeping the flow of milk uninterrupted. The five wells which pump from 1000 to 1500 gallons per minute each were also objects of Mrs. Reid's inspection. From the extensive acres of Mr. Ely, the visitor was taken to the intensive acres of the Rev. W. K. Foulke. The evidence of careful culture of every foot of the 25 acres is sufficient proof of the fact that much land in the Minnie valley is equal to many times the amount in the rainbelt, and is ample for the needs of the average farmer. With double the profit to the ordinary individuals are much higher on the small plots than on the large ones.

The Rev. Mr. Foulke, who is now the postmaster here, came to the valley broken in health from his carpentry. He is now in the Methodist church. He is now in the Methodist church. He is now in the Methodist church.

He now has 700 trees on 10 acres, 12 acres of alfalfa, and the rest in berries and grapes, and every vine and tree is in the very best condition. The oldest of these trees are five years old. So impressive was the demonstration of this place, that Senator has decided to develop 50 to 60 acre tracts along the same line.

Mrs. Reid employed a local photographer to make 32 slides showing scenes in the Minnie valley, and sections of the chamber of commerce to be used in lecturing upon these views. Mr. Reid's lecture will be given in New England towns, and this publicity for the southwest is expected to produce very satisfactory results.

## TO VOTE ON HIGH SCHOOL AT DEMING

Luna Commissioners Call Special Election for August 10; Friends Meet Tomorrow.

Deming, N. M., July 10.—Luna county commissioners called an election for August 10 to vote on whether Deming shall be designated as the location of a high school. The commissioners acted upon a petition for such an election signed by 500 voters of the county.

It was taken in accordance with a law enacted at the last legislature providing for such an election. The law provides that if supported by a special tax levy not exceeding two mills, it is a foregone conclusion that Deming will be designated as the location for the county high school, and then the local school board with the county superintendent of public instruction will come automatically the county high school board. This board will then ask the county commissioners for a levy of two mills for support of the county high school, which, under present assessment in the county, will yield about \$7000. A part of this money will be used in installing an agricultural department in the high school and employing an agricultural director.

Senator C. J. Laughren, president of the school board, has donated five acres of land already in cultivation, and near the high school, with a pumping plant sufficient for the irrigation of the tract, for the use of the agricultural department of the school. It is thought that this will be one of the most attractive features of the school work.

The board has announced its intention of building a concrete blooded house at Tunda in the western edge of the Deming district. A. C. Greenway, manager of the Calumet & Arizona, of Blaine, Ariz., arrived in Deming in his car to meet his old friend and commander, Col. Theodore Roosevelt. Mr. and Mrs. Roosevelt also friends of the colonel, whom he will visit in Silver City, came down in car, and the Ricketts and the Mills of Globe, Ariz., arrived on the same mission.

John T. McCabe and A. W. Morningstar, both of Lordsburg, accompanied Mr. Greenway from Lordsburg. Mr. Greenway is much interested in pumping water for irrigation, and together with Messrs. McCabe and Morningstar, were shown over the valley by the secretary of the chamber of commerce.

## FASCINATING HAIR FOR WOMEN

Is Easy to Have, Natural Colored and Beautiful

So many women have grey or faded hair; neglect it until it becomes thin, dry and lifeless, begins to fall out, and makes them appear much older than they really are. If your hair is in this condition get a bottle of Hay's Hair Health and it will be restored to its natural color and beauty. It is the only hair preparation that will restore the hair to its natural color and beauty. It is the only hair preparation that will restore the hair to its natural color and beauty. It is the only hair preparation that will restore the hair to its natural color and beauty.

## PLAN ASSOCIATION OF STAR POLICEMEN

Blaine Starts a Movement Which is Planned to Include All Police Departments in Arizona.

Blaine, Ariz., July 10.—Arrangements are under way here by the police, in conjunction with the police departments throughout Arizona, to form a state association. Such associations are organized in every state and are affiliated with the American Police association. The state organization would be a sort of a regional gallery for all the crooks in the state and it is believed that, by the exchanging of information, professional crooks would soon be put out of business and the various police departments could use all their time in looking after first offenders. It is planned to hold a meeting in Phoenix in the near future, and complete plans for the association.

Four new dump carts of the latest model have been received by the street superintendent's department. While standing on a siding, with no one about, the street car suddenly burst into flame. The sides of the car and the front were badly damaged before the fire was extinguished. A short circuit in the under motor box is given as the cause of the blaze.

At a meeting of the County Medical association held here it was decided that all meetings should be discontinued until the first of October. Papers relating to the prevention of diphtheria and scarlet fever were read.

## HIS FAVOR SOUGHT BY CONGRESSMAN

St. Louis, Mo., July 10.—Followers of congressman Richard Bartholdt, of St. Louis, are impatiently awaiting his reply to the charges that accompany the publishing of a photograph of a "confidential" letter alleged to have been written by him twenty years ago, enlisting the influence of Eugene E. Wiggin to obtain from the North German Steamship company "special rates for himself and his wife are now in

CONGRESSMAN RICHARD BARTHOLDT.

Europe. The letter is purported to have been written after Bartholdt had failed to secure transportation court-teses from the North German Lloyd line, despite the fact, as stated in the published letter that Bartholdt had expressed the opinion that the immigration question would be set before the next congress for deliberation. He subsequently became a member of the house immigration committee. Before sailing on his present trip to Europe congressman Bartholdt was seen on the pier of the North German Lloyd line, holding in his hand a ticket with the word "Special" stamped thereon.

TAKES MAN FROM ARIZONA TO BOSTON ON FRAUD CHARGE

Prescott, Ariz., July 10.—United States marshal C. A. Overlook has left for Boston, Mass., with F. E. Small, indicted at Boston by the United States grand jury on a charge of using the mails to defraud in connection with the affairs of the Brooklyn-Arizona Mining company. The trial of Small on 15 counts for the above alleged offense will begin in Boston this month. He was held in the county jail in this city for the past month under a \$10,000 bond which he failed to obtain.

## INCORPORATION IS DENIED FT. SUMMER

Charge is Made That Town is Under Control of Saloon Element and Relief is Sought.

Santa Rosa, N. M., July 10.—A petition asking for the incorporation of the town of Fort Summer, was heard by the board of county commissioners now in session, and the application denied. Practically an entire day was given to the hearing of testimony and argument of counsel. It is charged that the town is under the domination of the saloon element and its allied businesses, and the failure to carry the present movement looking to the proper regulation of these matters, forecasts a desperate struggle between the two contending elements for the control of local affairs.

The action of the board of county commissioners in rejecting the petition, was due to some uncertainty as to its sufficiency, the statute requiring a majority of the qualified voters of the community, and the board members were of the opinion that this majority had not been secured. It is said that a new petition will be immediately circulated, for presentation at the next meeting of the commissioners, and that steps will be taken soon to invoke the benefits of the local option law, as well.

Tax Values Increase. The valuations of property in this county, as shown by the assessment just completed, exceed \$10,000,000 dollars, making the assessed valuations for 1913 on the basis of the tax levied by law, something over \$1,000,000, or about 50 percent greater than last year.

The assessment rolls have gone to Santa Fe to be passed upon by the state board of equalization, and the matter of fixing the tax levies has been deferred until the August meeting of the board of commissioners.

County superintendent Gallagor has established another school district to accommodate the patrons of the canyon Blanco neighborhood. This district makes the number in the county 47.

Teachers' institute has opened here under the charge of Prof. Hofer, superintendent of the Tucuman schools, and with Mrs. G. E. Elliott as instructor. The largest enrollment ever recorded here is reported, and the work has been entered upon with enthusiasm. A large number of first-grade teachers will enter the work during the last two weeks of session, probably doubling the enrollment.

Rain Ends Drouth. The unusual stretch of warm, dry

weather was broken yesterday by a rainfall of something less than half an inch. The maximum temperature this season at this point has not exceeded 33 degrees, but owing to a slight humidity in the atmosphere due to the rains in June, the warm wave has caused some discomfort, but no precautions are required.

## SOCIAL GATHERING FEATURE AT YSLETA

Ysleta, Texas, July 10.—Mrs. Robert Cole entertained the Ysleta Yacht club at her residence. The reception rooms were decorated with masses of white and pink wild flowers. Refreshments of grape juice, sherbet and cake were served. The guests enjoying the hospitality of the afternoon included: Mesdames C. W. Smith, G. W. Huffman, E. S. White, John McDonald, F. W. Whitney, W. E. Phelps, J. E. Ward and J. L. Read. The next meeting of the club will be at the residence of Mrs. E. S. White.

Mrs. Raymond S. Bamberger has gone to Riverside, California, for a few days for a two week stay.

Mrs. S. Stansbury, E. M. Wilson and J. M. Davis, of the reclamation service, have gone to Clint, where they will be stationed.

Frank Cole, of Dallas, who has been visiting his brother, Robert Cole, has returned to his home.

## Warners Safe Remedies

### Kidney Trouble

is more prevalent and more destructive than any other disease suffered by mankind, and you should not allow its elusive character to blind you until the advanced stages have been reached. If you're nervous, lack ambition and have backache and indigestion, it is almost certain that the function of the kidneys to remove impurities is impaired and should be remedied immediately.

### Warner's Safe Kidney and Liver Remedy

acts specifically upon the kidneys and liver in such a manner as to establish a healthy condition if not taken too late. For 30 years it has been the standard remedy for kidney and liver diseases.

"I was a great sufferer from kidney and liver trouble. Warner's Safe Kidney and Liver Remedy relieved me at once. It has made me a new person."—Mrs. John Ricker, Seaside, Miss.

## "BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in dry ventilated factories—or those who shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic acid gas. This blood, or blood which lacks the red blood corpuscles, in making people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

## GOLDEN MEDICAL DISCOVERY

is a blood cleanser and alterative that starts the liver and stomach into vigorous action. It thus sends the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and vigorous instead of tired, weak and faint. Nowhere else you can obtain Dr. Pierce's Golden Medical Discovery Tablets, as well as the liquid form from all medicine dealers, or tablets by mail, prepaid in \$1 or \$5c. each. Address R. V. Pierce, M. D., Buffalo, N. Y.

DR. PIERCE'S GREAT 1008 PAGE ILLUSTRATED COMMON SENSE MEDICAL ADVISER WILL BE SENT FREE, CLOTH BOUND FOR 31 ONE-CENT STAMPS.

## ADDS BY PHONE

The ordinary cost of a Want Ad in the El Paso Herald is 25 cents. It reaches an average of about 70,000 readers each issue.
